

Dear Todd and Candice,

We think that you would make amazing parents because of your warm nature and generous hearts. You have always been very good friends to us and we always enjoy spending time with both of you. Our two children enjoyed spending time with you in Asheville. We both feel that you have such an abundance of genuine love for one another and others that a child would grow and thrive in that warm environment. We wish you guys the best and look forward to sharing this with you.

Wishing you all the best,
