

Dear Candice and Todd,

We believe that you would make amazing parents because you are both so thoughtful and concerned about others. Your involvement in the neighborhood and community is to be applauded. We think of you as the "hub" of the neighborhood - always available to offer a helping hand to a neighbor in need or keeping us in touch by planning events to promote a sense of community. How lucky for a child to have such caring and involved parents who would provide a loving home surrounded by friends and family. We can't wait to meet the amazing child who blesses the wonderful home you have both created! All the best,
Jacqueline & Daniel, Marietta, GA
