Dear Candice & Todd,

It seems like we've known each other forever, fifteen years ago @ SCAD you were fellow students, I am so happy that fate, friends and work have change that to a friendship I cherish.

The two of you will be fantastic parents, I know you can handle the work, you are generous, compassionate loving and fun—and have a sense of humor!

I am so excited that you have made the decision to take this step toward parenthood by starting the adoption process. There isn't much I could ever tell you about being a parent, it's never what you expect and it is definitely not boring!

We are so happy that our boys have you in their lives, you have gone out of your way to be with them, even when that could not have been easy.

Your love for learning and travel will enrich the life of any child, and because it is fun to you. You will be giving this child a wide open life, ready for adventure. I know you're going to love being parents and I cannot think of two people that deserve it more. Love, Sara
